BowFlex TC1000 TreadClimber

Price: \$1 599.00

You are looking at an excellent example of a **Brand New Bow Flex TC1000 Tread Climber**. This unit comes with manufacturer and eOn Fitness warranty. The BowFlex TreadClimber is a hybrid machine that combines the benefits of a treadmill, elliptical trainer and stair climber. Unlike a treadmill and stair climber, you avoid the high impact that can cause injuries to your joints and your lower back. According to the promotions you can burn twice the calories in half the time of a treadmill. Probably an overexageration, but there are some real benefits.

The BowFlex TC1000 is the entry model of the TreadClimber lineup. The price is equivalent to that of a midrange treadmill or elliptical trainer.

The electronics on the TreadClimber TC1000 includes 12 intensity settings giving a wide range of workouts that accommodate both beginners and elite athletes.

Other features include:

12 intensity settings and hydraulic resistance
Maximum 45 degree climbing angle
Speed adjusts from 0.5 to 3.8 mph
Three electronic functions to track speed, time and distance at a glance
